Manufacturer's Certification for Eligible Insulation Tax Credits

Advanced Fiber Technology, manufacturer of AFT Loose-fill Cellulose Insulation and AFT Stabilized Cellulose Insulation, certifies our compliance for tax credits for home improvements under the Internal Revenue Code as part of the American Recovery and Reinvestment Act of 2009.

The insulation installation must meet or exceed the 2009 International Energy Efficiency Code (IECC) and amendments. We warrant our cellulose insulation's primary purpose is to insulate.

American Recovery and Reinvestment Act of 2009 provides a credit against taxes for insulation improvements placed in service from January 1, 2009 through December 31, 2010, in an amount equal to thirty (30) percent of the amount paid or incurred by the taxpayer for material costs only. The maximum amount of the credit is \$1,500.

This certification statement is provided in printable form on the www.advancedfiber.com website. Retain this certification along with financial records for tax recordkeeping purposes.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.
